To Our Valued Customer:

In today's marketplace an industry leading brand is more than just quality products. STIHL has been committed for decades to providing the best outdoor power tools to help you get the job done. We choose to carry the STIHL brand because our team of friendly staff are dedicated to providing outstanding customer service, consistent product innovation, and exceptional value - all cornerstones of the STIHL brand.

Our team of knowledgeable product specialists will help you select the best tool for your specific need. Whether you are looking for an Easy2Start™ chain saw to cut wood before Winter, a split shaft trimmer that will do more than cut grass, or a blower to clear away yard debris, our store is the destination for all your power equipment needs. We will teach you how to safely operate and care for your STIHL products so that they last for many years to come. Every product we sell is assembled, set to factory specifications and tested on-site by a STIHL trained technician.

We invite you to visit our showroom and experience the difference a first class quality outdoor power equipment dealer can make for you!

Thank you for your business.

MSRP \$229⁹⁵ with 16" bar

CHAIN SAW SELECTION GUIDE

Make wood cutting easier, quicker and simply more satisfying with a quality chain saw that will cut through the work in no time.

Does size matter?

- Consider what you need the saw for. A 16" guide bar can cut almost twice its length.
- You need power, but extra power adds weight. Consider the task and seek advice. Make it safe, make it easy.
- Check for safety features like an inertia chain brake, side chain tensioning and a chain catcher.
- Choose a well-balanced machine with a good power-to-weight ratio: light enough to handle with the power to do the job.
- Ease of use - Can you confidently start and operate the saw? Are controls accessible and simple to operate?

Visit your local STIHL Dealer for expert advice. They will guide you on the most appropriate saw for your needs and supply relevant safety clothing and accessories.

LIMITED TIME ONLY

Added power and comfort for use on large properties and farms, and for firewood.

Fall Lawn Care Maintenance

Lawn fertilizer can be just as important in the Fall as it is in the Spring. The Fall is when much of the root development takes place. Any unused nutrients are stored over Winter for a quick green up in the Spring.

If you haven't already had a lawn aeration, the Fall is an excellent time to do this. Aeration enables fertilizer applied in the Fall to penetrate and allows Winter moisture to get deep into the root area.

Be sure to clean the lawn surface in the Fall. Any debris or leaves left on the lawn which will be covered in snow will enable lawn diseases to occur (such as snow mould). Your lawn should be cut short to 1 1/2" (4 cm) in the Fall. This helps to deter snow mould and makes Spring clean-up much easier.

GAS KOMBISYSTEM

- **Easy2Start™** - Makes starting a simple, easy process.
- **Versatility** - 14 different attachments available.
- **Split Shaft** - Highly versatile, easily transported and easy to store with special tool-less quick-release coupling.
